TERSELY TOLD.

\$5.00 REWARD.

The Journal will pay \$5.00 reward for evidence sufficient to convict any boy or person found stealing subscribers' papers after delivery of same by carrier.

TERSELY TOLD . . . C. R. Cochran, of Holt, arrived in the city yesterday and is a guest at the San Carlos.

G. W. Ellis, of Atmore, Ala., was among the arrivals in the city yesterday. He is stopping at the San Carlos.

J. H. Williams, of Milton, is in the city today. He arrived yesterday and is a guest at the San Carlos.

THE CANNING INDUSTRY IN SANTA ROSA

FROM ONE-QUARTER OF AN ACRE
OF TOMATOES BERRYDALE MAN
CANNED AND SOLD \$70 WORTH
AT EXPENSE OF \$17.

The Milton Gazette in its last issue printed the following: "Some folks say that the canning industry is no good here, because a venture of this sort failed in Milton several years ago. That is a mighty weak argument. Other lines of business and industry have also failed in Milton, and the identical same lines are now doing business here and thriving and prospering. Let us cite a few facts about the canning business in Santa Rosa county as an object lesson:

This year, 1913, Mr. Charles Purvis of Berrydale, a settlement about thirteen miles from Milton, from one-quarter of an acre in tomatoes, after family use and giving to neighbors, canned and sold \$70 worth of his product at a total expense of \$17. His tomatoes are solid and of a very fine variety and far ahead of the Baltimore canned varieties that are sold in this market.

This is an industry that should be looked after and established in this city. With anything like proper management canning can be made to pay big here, and the beauty of it is that it can be kept running the year round. Let the people know that there is a sure market for their produce and they'll fetch it. The stuff can be made here and the people are anxious to make it, but without a market they naturally say, "what's the use? Give them a chance and they'll show you."

MILITIAMAN FAILED TO PAY FINE, IS JAILED

J. HAUTEMAN, CHARGED WITH FAILING TO RETURN EQUIPMENT TO ARMORY, TAKEN INTO CUSTODY BY DEPUTY SHERIFF GRIFFITH.

For failing to pay a fine imposed on him by a recent court martial, J. Hauteman, a member of Company I, Florida National Guard, was taken into custody Saturday night by Deputy Sheriff Griffith and carried to the county jail, but was immediately released by Chief Deputy Hartfield with the understanding that he report to the sheriff's office Monday morning.

Hauteman was arrested about two weeks ago on the charge of failing to return his uniform and other equipment to the armory after being notified to do so. He was courtmartialed and fined \$16, being given ten days in which to pay the fine or serve in the county jail. The court martial was held in Pensacola about twelve days ago, when several other members of the local militia were fined for failing to return their uniforms and equipment after being instructed to do so.

AMERICAN WOMEN CARELESS. They over-estimate their physical strength and take chances which in the long run cause pain and trouble. Wet feet, a cold from exposure, neglect of such warning symptoms as headache, nervousness, bearing down pains, all lead to untold suffering. To all such women we want to say Lydia E. Pinkham's Vegetable Compound is the unfailing remedy in such cases. Thousands of American women testify to its virtue. (Adv.)

STIFF PENALTY FOR A "MASHER"

YOUNG MAN IN ST. AUGUSTINE BECAME TOO GAY WITH LADIES ON STREET AND WAS ARRESTED, AND FINED BY COURT.

The St. Augustine Record prints the following:

One hundred dollars and costs, or sixty days in jail, was the sentence handed R. I. Dubberly, a young railroad telegraph operator, in city court this morning on a charge of using profane language and of disorderly conduct. The specific cause of the charge was Dubberly's accosting two ladies on St. George street last night and tagging after them to their homes. Such offenses are rare in St. Augustine and Judge Goode has before shown his impatience with such conduct. Dubberly appeared in court, immaculately dressed, and pleaded guilty, stating that the last he knew he was in a saloon drinking. He was arrested by Officer Walter Masters.

BAY MINETTE MAYOR IN CITY

PARTY COMES OVER TO LEARN SOMETHING ABOUT MEMPHIS AND PENSACOLA RAILROAD—PRAISES PENSACOLA.

W. D. Stapleton, C. M. Proctor, and F. C. Hall of Bay Minette were in Pensacola yesterday looking into the work of the proposed Memphis and Pensacola railroad, whose line of survey runs through their city. Mr. Stapleton is cashier of the Baldwin County Bank at Bay Minette and mayor of the city. "Pensacola shows indications of improvement every time I visit the city," said Mayor Stapleton to a Journal representative last night. "It is looking better all of the time and you are ultimately going to have a great city here. The street paving is excellent and everything bears an aspect of civic pride and faith in the future. We are greatly interested in the proposed Memphis and Pensacola railroad and I am glad to see indications so favorable to its construction."

The party will return this morning over the Deep Water Route, taking the L. & N. west from Atmore.

COURT OF RECORD WILL MEET TODAY

The court of record will convene in regular session this morning at 10 o'clock, Judge Kirke Monroe presiding. There are quite a number of cases to be tried at this term and it is expected that the session will last two weeks.

Have The Journal follow you on your vacation. Phone 1500.

WHEN OTHERS FAIL CONSULT THE

GERMAN-AMERICAN DOCTORS HONEST TREATMENT

We believe in fair dealings and honest methods, which together with our long experience, skill and ability, are the only qualifications and conditions that can really GUARANTEE A CURE. WE CURE Catarrh, Nervous Diseases, Obstructions, Enlarged Veins, Blood Poison (Ehrlich's, Discovery, "314" and "616," administered), Eczema, Piles, Skin Diseases, Piles, Rupture, Kidney and Bladder diseases, and Chronic Urinary and Special diseases of Young Men, Middle-aged Men and Old Men, in the shortest possible time and at the lowest cost for skillful service and successful treatment.

RECORDER PRO TEM WILL TRY LIQUOR CASES

TWO NEGROES CHARGED WITH "BOOTLEGGING" WHISKEY IN FISH STAND AND SHOE SHINE SHOP WILL BE DEFENDANTS IN CITY COURT TODAY.

Among the defendants who will be tried this morning by Recorder Pro Tem H. Paulsen will be two negro men charged with selling whiskey on Sunday. They are Jesse Bell and William Robinson. Bell is charged with "bootlegging" whiskey in a fish stand near Devilliers and Belmont streets, while Robinson is said to have sold liquor in a shoe shine stand on South Tarragona street. Several negroes charged with gambling will also be up for trial this morning.

KNIFE WIELDER UNDER ARREST

DUD PITTS, WHO DANGEROUSLY WOUNDED MILES FAIR, TAKEN INTO CUSTODY BY OFFICER KYLE YESTERDAY AFTERNOON.

Dud Pitts, a negro man, charged with cutting Miles Fair's throat and arm Saturday night, was arrested yesterday afternoon by Mounted Officer Kyle in the northwest part of the city. He was locked up in the city jail and his case will be called in the recorder's court this morning.

Pitts told Chief Sanders that Fair called at his home, No. 906 West Belmont street, about 10 o'clock Saturday night and pulled him from his porch, at the same time trying to cut him. When Fair was being carried to the Pensacola infirmary in the patrol wagon, he told the officers that Pitts attacked him without warning while he was standing on the street talking to his wife. Fair is badly wounded.

RAIN AND HIGH WIND CHECKED EXCURSIONISTS

STEAMER BALDWIN ONLY VESSEL OPERATED YESTERDAY BETWEEN CITY AND GULF BEACH. CESSNA WILL INAUGURATE A REGULAR SCHEDULE TO FREE-PORT TODAY.

Rain and high winds yesterday caused a big falling off in the number of excursionists who usually spend a part of Sunday at the two pavilions on Santa Rosa island. Only one of the large excursion steamers, the Baldwin, made trips out from the gulf beach yesterday, but even the patronage accorded this vessel was exceedingly small, only a few making the trip at 11 o'clock in the morning, while the number who went over on the 3 p. m. trip totaled 103.

The new steamer Charles E. Cessna was not operated yesterday between the city and gulf beach on account of the bad weather. The vessel was tied up at her dock at Baylen street wharf all day, but she is scheduled to start this morning on her regular run between Pensacola and Freeport. She will leave this morning at 8 o'clock and will be back in Pensacola Tuesday evening, arriving here in plenty of time to take out a moonlight excursion Tuesday night. On her second trip to Freeport the Cessna will leave here at 8 a. m. Wednesday and is scheduled to arrive here on the return trip Thursday evening. The Cessna is in command of Capt. Rogers, one of the most competent navigators in this part of the country. The Cessna will carry freight and passengers.

COOPER GRIGGS AND HAYS LEWIS

WEST FLORIDA MEN INTERESTED IN BIG REAL ESTATE DEAL IN JACKSONVILLE.

The Jacksonville Metropolis says: Announcement was made today by W. I. Phillips that the Jacksonville Real Estate and Investment Company, in which he is one of the directors, had sold its holding in the property known as Oaklawn, located on Main street, about two and a half miles from the city hall to Cooper Griggs, Hays Lewis and Edward O'Donald, for a sum said to be in the neighborhood of \$100,000.

The deal, which was consummated through Ingraham and Ingraham, is one of the largest that has been made in property located north of the city in some time.

When the property was first put on the market some thirty thousand dollars was spent on improvements, and it is understood that the new owners will make still greater improvements, and will change the name of the property to Main Street Parkway.

This is one of the most desirable sections surrounding Jacksonville, and will in a short time be one of the very thickly settled sections. The property is rolling and is an ideal site for homes.

CAPT. BARROW LIKES CESSNA

SAYS NEW STEAMER IS FINE EX-AMPLE OF ENTERPRISE—NOT ONLY HANDSOME BUT SAFE AND FAST AS WELL.

Capt. W. G. Barrow, master of the coastwise steamer Taron, is greatly pleased with the new Pensacola and Choctawhatchee bay steamer, the Charles E. Cessna.

"I have been sailing these waters for forty years," said Capt. Barrow to a Journal representative yesterday, "and the Cessna is the finest example of steamboat enterprise that I have seen here during that time. She is not only a handsome craft, but she is built for both speed and safety as well. Dr. Cessna, the owner of the new boat, deserves great credit for what he is doing to develop the business of this section."

Capt. Barrow is one of the ablest steamboat men who ever carried a master's papers and his praise of the Cessna is therefore all the more significant.

MR. M'QUARRIE MAKES REPORT FOR THE WEEK

CROP ADVISER FOR ESCAMBIA COUNTY CROP ASSOCIATION TELLS OF CONDITIONS OVER HIS DISTRICT.

Cotton growers are now busy picking cotton and in some instances, the yield is very satisfactory. The price has been steadily advancing during the last few weeks, and it looks as if the returns from the crop will be a good deal more satisfactory than was at one time expected.

Rice. There are quite a number of rice patches scattered throughout the country, all of which are very promising; some have cut their crop and report a satisfactory yield. This crop is a very much neglected one and it is one of the most profitable crops our farmers can grow, and one great point in its favor is that it can be made a catch-crop, after a spring crop; if sowed as late as the first of June, it will make a good crop before cold weather. It is excellent work-stocked feed, but to get best results from it for stock feed, it should be cut in the dough stage, and made into hay. Some are leaving it too long before cutting, with the result of considerable loss by seed shattering. The stage at which to cut is when the first yellow tinge shows in the field; if cut then, and tied in bundles and shocked, the seed will mature sufficiently either for seed or hulling purposes.

Fall Planting. As noticed in last week's letter, all vegetables for fall and early winter use should be got under way as soon as possible. A very important and profitable crop, when properly handled, is the Bermuda onion crop. It is, however, very important that the very best seed should be used; to get this quality of seed, orders must be sent in early. The seed is very rarely available before the first week in October. The best seed comes from the Island of Tenerife, off the Spanish coast, and the growers on that island are very careful to have the seed well matured here they harvest it, and it is H. G. Hastings, of Atlanta, Ga., has been making a specialty of this seed for a number of years, and I would recommend all intending growing this crop, to place their orders right away. The seed should be tested for its vitality before planting; one of the best ways to do this is to immerse the seed in water; all of the seed that float are worthless; those that sink are good. The seed should be sowed in rows about six inches apart in well prepared beds, and when the plants get to the size of a goose quill, they should be transplanted to the field where the crop is to grow.

Winter Cover Crops. Any farmer worthy of the name, will see to it that his land is protected in the winter with a cover crop of some kind, and in a climate like ours, and with such a wide range of crops at his command, he is remiss in his duty to himself and the community in which he lives, if he neglects this very important matter. For soil building purposes, he has legumes such as crimson clover, burr clover, and hairy vetch. If he wants to increase the humus content of the soil, he has rye, oats and barley to use by plowing under in early spring preparatory to planting his main spring crops. If he prefers to grow cover crops and use them for their grain or cut them in the dough stage and cure for hay, he has oats, rye, and barley, all of which are valuable crops and well adapted to Escambia county soils.

Strawberries. During this last spring and early summer, 85 per cent of the strawberries on the Pensacola market were shipped in from somewhere else than any point in this county. This is a state of affairs that should not be allowed to exist, because we have the soil and climate to produce this fruit in abundance and of the best quality. Now is the time to get preparations for this crop under way. Select a good piece of land, preferably where a legume crop such as cow peas, soy beans, or velvet beans, has been grown during the summer. Plow deeper than the land was ever plowed before, with a good turning plow, putting everything of a vegetable nature under the ground, and using a sub-solter in the same furrow. In this way you will open up the substrata of soil to aeration and ventilation, which will give the crop the needed supply of moisture at the time it is most needed, which is when it is full bearing. Send to the Continental Plant Company, Kirtland, N. C., for their catalogue; select about 50 per cent of your plants of the Missionary variety, 25 per cent of the Klondyke, 15 per cent of the Excelsior, and 10 per cent of Lady Thomson. To get a crop next spring, the plants should be set out not later than the end of October. Fertilize as heavy as the soil will warrant (applying it broadcast) with a fertilizer analyzing 4 per cent ammonia, 6 per cent phosphoric acid, and 8 per cent potash. The source of this ammonia should either be sulphate of ammonia, blood, or a high grade analysis. Never use a tank organic fertilizer like cottonseed meal for strawberries if you want high-grade fruit. Use sulphate of potash, not muriate, for the same reason.

Figs. Quite a number of fig trees in different parts of the country are setting a second crop of fruit; this will reduce the vitality of the tree very much should fruit be delayed long enough to allow this fruit to ripen. To help maintain the vitality of the trees and ripen the fruit, an application of six to ten pounds (according to size of trees) of a fertilizer high in

NAPOLEON was small, but look what he accomplished. The Ford is

More than a quarter of a million Fords now in service—convincing evidence of their wonderful merit. Run—about \$850; Touring Car, \$900; Town Car, \$950—L.O.B. Pensacola, with all equipment.
